» *About travel insurance*

- ESEI does not include accident insurance on trips to Spain for international teams for economic reasons, since we advise them to contract such insurance in their country of origin, since it is cheaper.
- In the event that the teams choose to have this insurance contracted by ESEI, it must be billed separately from the prices indicated in the table on the next slide.
- In case the international teams choose to contract the insurance in their country, they should send a copy to ESEI's policy before the group's arrival in Madrid.
